Discount Portable Hot Tubs - What You Need To Know

The term spa and hot tub are interchangeable most of the time but a spa is really a type of a hot tub. The mobility offered by portable spas is a nice to have.

Just as the stationary spas need maintenance, the portable ones also do. These should come with a water treatment chemical kit which will help maintain a level of safety through keeping the water clean. Water filters will keep dirt, insects and leaves away.

Tip: [Two person hot tubs](#) are still the most popular.

In addition, accessories such as massage units, bubble jets, additional seating options and underwater lighting are nice luxuries to have. The spa was purchased with the intention of pampering yourself right. The slightly larger units usually have a 6-7 feet diameter and accommodate up to 5-6 people simultaneously. These features and others will depend on which company's products you go with and the model you choose.

Tip: The new range these days is the [3 person hot tub](#).

The in-the-ground or fixed spas retail between \$3000-\$5000. The portable spas cost between 900 USD and 1500 USD. The price range varies depending on the model you choose and the upgrades you wish to add.

Not sure where to start? You are already on the right path. Look for articles, product reviews and sales on discount portable spas. Try to seek out companies that specialize in spas and hot tubs. Look for the big name companies that are the leaders in hot tubs and spas. Try to find direct merchants or factory outlets rather than going to a retail store. Hot tubs are a big purchase and you can find good deals by looking around.

Tip: Look at multi-person or [four person hot tubs](#) also.

You can also find coupons online for company websites and also in industry or trade magazines. Expect to spend 1 to 2 weeks at the minimum to figure out what you want and then finding the best deals on it.
