Dear Fellow Punter, In the same way you stumbled across this page, just imagine stumbling across a FRESH new approach that no one else had ever heard about... Just imagine a betting method that turns £20 into £315, £577 or even £981 every day, 362 days a year. Now imagine that could also do the same on over 302 evenings a year as well. Imagine you had a selection of different betting strategies that would meet any set of race circumstances and turn them into winning runs. Just imagine you had access to "idiot proof" method and software that directed you to the meetings, the races and the horses you need to be betting on, to make that £981.22 per day. I set up this service with integrity to help fellow punters get into profitability quickly and consistently. I am not some faceless git hiding behind some scammy betting system website who doesn't even put his own money where his mouth is. There is a lot of sh*t out there as I'm sure you already know. Let me be very clear - I put my own money down and bank the profits every day (see the video above) and I'm going to show you exactly how I do it and be there with you every step of the way. So, if you've been looking for a way of fast tracking your betting into awesome profit, no matter what style of betting you prefer, here it is, so be sure keep reading this page to see how ABSX can change your life.

One year ago I really did sell toilets for a living... Now I bank up to £37,555 every month from the major UK betting Exchanges (See the proof in the video at the top of this page)... And... I Completely ignore conventional betting systems!

Well how about I show you something totally unique and groundbreaking, that will compliment any style of betting you like and which will sky rocket your profitability? To launch your betting into life changing profit you need access to a method and prediction tool that is so powerful, yet so simple to use. A tool that you can have access to in just 3 clicks of a mouse. Every minute of the day, from anywhere in the world. I'm talking about Auto Bet System X and The Machine. Together they represent a money-pumping win-spewing betting system on speed. A pot of gold that is endless and there for the taking day-in-day-out. Remember I invested the last of my savings on the best computer programmer I could find and got her to build me what I call The Machine. Now, The Machine side-by-side with my Auto Bet System X Method has enabled me to give up the day job, to stop selling toilets and to create the lifestyle I want - and in addition, I have now treated myself to that new car.

What I've created really is that powerful. It is totally unique, totally groundbreaking and it can do the same for you...
