# Different Locations For Vacation

It is pretty safe to say that there are many places across the world that people would not have thought about going before and you really are missing out because they are great. I am not talking about one of those [spa breaks](#) or [dancing holidays](#) here, something a bit different!

## Moscow

This city is a really beautiful one to go and visit and it is really worth going to because there is so much to do. One of the most popular locations in Moscow is of course Red Square and despite what people believe it is not actually named after the soviet Partys colour back in the day but after an old word that stood for beautiful when it was used in the 17th century for the first time.

The Kremlin is a place you will certainly want to visit and it is the centre of the government within Russia, it pretty much means fortress and it is packed with landmarks along with museums and cathedrals. this building is not all open for public access, do not forget it is a governmental one. It is also worth paying a visit to the mummified body of Lenin, a well respected figure in Russia even to this day. surely you must know who Lenin is right?.

## Tokyo

There is always so much going on in this city, it can actually be a bit overwhelming. One of the things I would do here is visit Disneyland and DisneySEA to see what you think of them and then do the rest of things too. It is very rich in technology which makes it a city that is very fun and easy to explore without the need of much guidance. It is worth checking out the fish market and Meiji Jingu shrine whilst out there.

It may be a bit different from your [Torquay holidays trip but doing something like this is well worth the wait and money saved.](#)
