# Easy Trader Pro 2

Well, I'm here to tell you that it is possible - but only if you abandon everything you know about horse racing and Betfair and swipe a proven system that 99% of punters don't know about.

I'm ready to show you an easy and unique Betfair trading system, proven to generate as much as £450 in 60 minutes, a rapid £260.01 or even £2,551.10 in four days.

In fact, you'll have to abandon all the lies you've been fed about Betfair: backing, laying, form cards and losing trades.

A time-proven system for making extraordinary sums of money... one which I've adapted, fine-tuned and perfected for the Betfair markets of 2009.

With my new, discovery, you'll make only a handful of smart trades. And you'll never need to worry about losing your shirt on a single bad bet.

The great news is, my method has been refined and redesigned for Betfair punters with very little starting capital and full-time jobs.

Are you sick of the gambling gurus' systems and tipster services - that sound great and then wipe out all of your profits with a single losing bet...

For the last few years, I've been working on the ultimate Betfair system - now I want to "spoon-feed" you this inside information so you can copy my success...

You see, it's taken me almost 5 years to say it, but I've developed a revolutionary Betfair trading system, based on my own experiences and those of over 4,000 real-life Betfair traders,...

My name is Chris and I have trained up over 4,000 Betfair Punters over the years, beginner and Betfair pro's alike - using my famed Easy Trader Pro System.

Through my EasyTrader site, I have interacted with thousands of punters, allowing me to refine my methods and constantly distil what works on Betfair and why.

In short, I understand better than anyone what stands between you and a consistent second income from Betfair.

Experience has taught me a few very important things about Betfair (stuff that 90% of punters aren't privvy to) - so when I say I've discovered the ultimate Betfair opportunity, you should listen closely...

Betfair launched in 2000 and is the largest betting exchange in the world - it averages in excess of £5 million transactions daily.

You place bets anonymously with other people on anything from Big Brother to mainstream sports and horse betting.

And you don't have to worry about Betfair closing your account if you have too many winners or spreading your bets across different bookies..

Betfair makes their money from commissions so it's in their interest to keep your account 'live'.

But you need an edge if you want to really make a killing with the site, and that's where I come in...

You see, that's how long it's taken me to find a trading tactic which safely and consistently pulls in the cash... and can be used so that others can easily swipe and profit on a massive scale.

It doesn't matter if you're starting from scratch or an experienced trader who hasn't had the success...
