"Just a few lines to congratulate you on Form Wizard-Pro. I have, over the last few years, tried a large number of horse racing programs costing up to ten times the price... I am most impressed with the results.. I am preparing this letter a couple of hours after cheering home top rated winner Lord Gyllene at 14/1. I will close now by adding that I believe Form Wizard-Pro is not only the best horse racing program I have ever used but is worth many times its price." Mr M. Burt

"I have tested the Pro-Method over a monthly period during February and am delighted by the results...From 17 bets, 14 won and 2 were placed 2nd. A remarkable strike rate of 82%!" Mr J.K. Donnelly. Kent

"The horse racing software is winning like mad! Twelve Winning NAPS in a row from the higher class races... Fantastic!" Mr.D.Lewis

Detailed records showing previous selections have been sent to ODDS ON to prove the authenticity of this method and the selections proofed to The Racing Times. You can also check back and prove to...
