## [Callaway Solaire Ladies Golf Clubs Review](#)

I was reading Golf for ladies the other day and wondered where are the ladies who wear the golf clothes modeled in women's golf magazines? I've never seen women, masters included, dress up in such pricey and outrageous clothes!

It's not hard to spend some money attiring yourself for golf. Caps, sun shades, gloves, shirts, pants, socks, windbreakers and shoes all add up quickly, even if you shop the sales. Add in gear, bag and cart and you've got to perform quite often to keep in control the "CPU" - cost per use.

One particular glossy ad displayed a model in skimpy shorts (like that's made possible on courses!) that cost \$275, the TSE golf shirt (\$595), jacket by Ralph Lauren (\$185) and two-toned Utuser footwear (\$425). Which comes as much as \$1480; I possibly could never aspire to get the CPU on that attire anywhere near a normal level in my life time! Don't misunderstand me; I really like clothes. I truly adore footwear, but could never come up with the money for, or would like, golfing footwear that are more expensive compared to countrywide spending plan of a number of small countries.

Naturally, you would like cozy footwear that doesn't seem like something your grandma would be wearing, instead, you want something that you can easily find less expensive and trendy in footwear. I have several really fashionable golfing garments, not one of them a famous brand. Basically, if I totaled the price of these up it wouldn't come up to the price of the TSE golf shirt. For me personally, I'd rather have quite a few classy outfits over one that's outrageously priced. Basically if I were to wear a \$1480 outfit to play golf, I would simply be too concerned about being dirty or perspiring to experience a good round.

Aside from ladies golf clothes, girls golf players nowadays positioned next to the men in terms of golf capabilities plus they do remarkably greater than the guys in all round results. One of the explanations why is due to the fact of the really well-known Callaway Solaire [ladies golf clubs](#), a trusted golf set. Women who have enjoyed golf for a while already will know of this golf club set provided by Callaway.

This set of 14 clubs come complete with a titanium driver which may be very efficient once you are on the course. It also has 3 three fairway woods that are made from stainless steel. To complete the set, it has 2 irons, 3 wedges, along with a mallet putter.

Because the Callaway Solaire complete golf club set are designed for women, the end result is a better overall performance in addition to more effective golf swings. This will mean golf swings that are longer, have a good shot range, and also have higher reliability rates. When compared with those of men, the Callaway Solaire ladies golf clubs are much lighter in weight to allow greater control and convey less anxiety at the same time.

To assist you carry or store all these clubs, the Callaway Golf Solaire golf bag comes with a stylish yet functional design. The golf bag is created for ladies so it will certainly appeal to most of women's preferences. It's really a very adaptable bag too. It will not only permit you to carry your clubs, it features a large amount of pockets for other purposes. Check out the following [Callaway Solaire review](#) for additional information.
